Meetu Kohli, DMD, BDS is Clinical Associate Professor and Director for Continuing Education and International Visiting Scholar Program and the Master's in Advanced Dentistry Studies Program (MADS) at the University of Pennsylvania, School of

Dental Medicine, Endodontic department. She is a member of the Dean's advisory council. Dr. Kohli earned her B.D.S. degree from Government Dental College, Bangalore, India. She pursued her D.M.D. degree as well as specialty training in Endodontics at the University of Pennsylvania, USA. During her training she received the esteemed Louis I Grossman award, the Samuel R. Rossman scholarship and the Sherrill Ann Siegel award & scholarship for demonstrating excellence in patient care, clinical skills and research. She is on the Scientific Advisory Board as a reviewer for Journal of Endodontics, International Endodontic Journal, Journal of American Dental Association and other endodontic journals.

DENTAL TRAUMATIC INJURIES: STRIVING FOR THE BEST OUTCOME

The incidence of dental trauma is highest in the first two decades of life and hence the young permanent anterior teeth are of particular importance in traumatic injuries. Successful retention of these teeth is paramount to long term esthetic, function and health of not just the oral cavity but the physiological impact the loss may have on these young patients. This presentation will review the latest guidelines by IADT and AAE, to understand how and why they have changed over time. Treatment options for each type of injury based on the biological goals will be reviewed with clinical cases. Prognosis of treatment for each type of injury will be review and current literature discussed.

After this course attendees will be able to:

- Review the biologic sequelae of dental traumatic injuries
- Evaluate treatment aims based on current guidelines to maximize positive outcome
- Recognize possible future treatment trends in dental trauma

** Tuition includes coffee and pastry break with an opportunity to network with peers at 10:00 – 10:30 am.*

Endorsed and co-sponsored by the Massachusetts Association of Endodontists.

Recommended Audience: Dentist
